Yeah, check this out
I am gonna ask you question
Where were you on that night?
See I remember
(Sugar)
I know where I was at
Let's reminisce about it

(Where were you?)
When you first heard Biggie or Pac
And you knew you were blest
With the best of hip-hop

(Where were you?)
When you first drove
A brand new Benz
Wood grain with all polished off rims

(Where were you?)
When your team came back with the ring
With your crew rolling through
You could do anything

(Where were you?)
On the night that the love of your life
Got a room making love
While the feeling inside
(Where were you?)

Close your eyes
And try to think back
On the happiest days of your life
When you felt so alive
Just sit and reminisce there for awhile

For that time how it flies
Look up in the places and places have changed
And the things you once recognized
Seem different in the twinkling of the eye

(Where were you?)
When you first heard Biggie or Pac

And you knew you were blest
With the best of hip-hop

(Where were you?)
When you first drove
A brand new Benz
Wood grain with all polished off rims

(Where were you?)
When your team came back with the ring
With your crew rolling through
You could do anything

(Where were you?)
On the night that the love of your life
Got a room making love
While the feeling inside
(Where were you?)

Tell me, do you remember
'Cuz I remember?
(Where were you?)
Where were you, you?

A fresh pair of Tims
Your very first charm on the chain
How you just couldn't just wait
Till the weekend began
Hook up with you friends and do it all again

Back when your first love was true
You had her back she had yours
Nobody dare disrespected
'Cuz all of them knew
To feel that way again
There isn't thing that you wouldn't do

When Jay put the needle to the record
Series 5 make it live with the message
And MJ had to be in a jacket
Mine was plastic ghetto

Where were you when Shaq left the Magic
Season later meet with Kobe at the Lakers?
When you first got your 2-way pager
Tell me where were you

(Where were you?)
When you first heard Biggie or Pac
And you knew you were blest
With the best of hip-hop

(Where were you?)
When you first drove
A brand new Benz
Wood grain with all polished off rims

(Where were you?)
When your team came back with the ring
With your crew rolling through
You could do anything

(Where were you?)
On the night that the love of your life
Got a room making love
(Where were you?)

(Where were you?)
When you first heard Biggie or Pac
And you knew you were blest
With the best of hip-hop

(Where were you?)
When you first drove
A brand new Benz
Wood grain with all polished off rims

(Where were you?)
When your team came back with the ring
With your crew rolling through
You could do anything

(Where were you?)
On the night that the love of your life
Got a room making love
While the feeling inside
(Where were you?)

Where were you?
Where were you?
Tell me where were you?
Tell me where you?
Tell me where you, baby?
Tell me where were you?
