hhmmm, yeah
mm, hhhmm, listen

I wanna ask you a question
yeah, yeah, yeah

Here we go again, Babe,
you think I'm tryin' to hurt ya and ya comin' at me, I
don't see
how you can do me that way,
I never lied, tried to be the man you asked of me.
Do I gotta be around you all day to make you feel I
care?
Cause I give you everything that you need, buy you
things, pull out your chair.
Why you doing me so bad, babe? gotta meet me
halfway
Darlin' I don't understand why...

Why is it so hard for you to let me in?
You got me paying the price for your ex-boyfriend, tell
me.
Why is it so hard for you to trust me?
I try to tell you things, you believe everyone, but me,
baby.
Why is it so hard for you to let it go?
Made it impossible for our relationship to grow.
What can I do to make you see?
Just believe and trust in me.
Baby, can you tell me why is it, why is it so hard?

Do you really wanna be here?
Cause I'll back off no matter how much it hurts, just say
the word.
You're sayin that it's me, I'm the cause
You think I'm cheatin' when you know I'm at work, you
got some nerve.
Do you gotta keep checking my phone to see there's no
one else?
For what you're putting me through, I'd rather be by
myself.

Why you doing me so bad, baby? Meet me halfway.
Darlin' I don't understand why...

Why is it so hard for you to let me in?
You got me paying the price for your ex-boyfriend, tell
me.
Why is it so hard for you to trust me?
I try to tell you things, you believe everyone, but me,
baby.
Why is it so hard for you to let it go?
Made it impossible for our relationship to grow.
What can I do to make you see?
Just believe and trust in me.
Baby, can you tell me why is it, why is it so hard?

Why is it so hard for you to let me in?
(Why is it so hard?)
You got me paying the price for your ex-boyfriend, tell
me.
(You gotta let me in)
Why is it so hard for you to trust me?
(I don't wanna pay the price)
I try to tell you things, you believe everyone, but me,
baby.
(That your boyfriend feels)
Why is it so hard for you to let it go?
Made it impossible for our relationship to grow.
What can I do to make you see?
Just believe and trust in me
Baby, can you tell me why is it, why is it so hard?

Take a second, to see what's really going on.
Ask yourself, have I done anything?
Besides what ya think or what your girlfriends tell ya,
Tell me the truth, don't you see a good man?
Don't lose because of what happened in the past.
I'm tryin' to hold on, cause I think you're gon' change.
It's killin' me, don't know how long I can last,
Don't make me suffer for the next man;
I ain't the same....

Why is it so hard for you to let me in?
You got me paying the price for your ex-boyfriend, tell
me.
Why is it so hard for you to trust me?
I try to tell you things, you believe everyone, but me,
baby.
(I will be a man and stand on my word)
Why is it so hard for you to let it go?
Made it impossible for our relationship to grow.
(say yeah, say yeah)

What can I do to make you see?
Just believe and trust in me.
(trust in me)
Baby, can you tell me why is it, why is it so hard?

Why is it so hard for you to let me in?
You got me paying the price for your ex-boyfriend, tell
me.
(I will do what I'm suppose to)
Why is it so hard for you to trust me?
I try to tell you things, you believe everyone, but me,
baby.
(say yeah, say yeah)
Why is it so hard for you to let it go?
Made it impossible for our relationship to grow.
What can I do to make you see?
(what can I do)
Just believe and trust in me.
(Just believe)
Baby, can you tell me why is it, why is it so hard?

Ain't it alright. I can do anything you want me to.
