Comin' up on highway marker 309
The song on the radio is fadin' out
Every word you said is runnin through my mind
Lookin' for reasons to turn around
I'm wonderin' where this road is takin' me
And drinkin' this coffee I didn't think i'd need (Oh I)

Didn't think you'd let me go this far
Let me take this key
Start up this ol'truck
I thought you'd find it way too hard
To ever let me leave
Cause you loved me way too much
Oh I thought you'd find a way to get me
Back into your arms
I didn't think you'd let me go this far

I see a car behind me coming up too fast
And first thought is that it's you
You've come to say you're sorry baby please come
back
I'm ready to say that's all you had to do
I blink my eyes and that car flies on by
And my hope just fades away with every passing mile
(I)

You didn't even try to stop me
All you had to do is tell me you want me you need me
Can't live without me

(Repeat Chorus)
