I see the wheels turning in your head  
You're thinking it over  
Small talk is done goodnight's been said  
And you're moving closer  
Wind chimes are singing on a front porch breeze  
Might be as perfect as it's ever gonna be

(Chorus)  
Don't even think about it  
Don't let it cross your mind  
Don't wonder what would happen  
If you stepped across that line  
I know exactly where you're hoping  
This moment might lead  
Don't even think about it  
Just close your eyes and kiss me

Don't hesitate don't miss this chance  
Don't second-guess it  
Just let my smile these trembling hands  
Answer your questions  
My heart is racing i've never been so sure  
Come on baby what are you waiting for

(Repeat Chorus)

Kiss me wild and reckless  
Let your emotions carry me away

(Solo)

I know exactly where you're hoping  
This moment might lead

Just close your eyes  
Just close your eyes and kiss me
