It don't make much sense
You and me we got everything
But you can't wrap your head around
Gettin' gone from where you've been
It ain't that hard
To see the hole i'm standin' in

(Chorus)
Jump in my world
Come take look through these tears
Just get a glimpse of the heartache
That I feel in here
Do some time in this bittersweet hell
That i'm walkin' through
Put yourself in my blues

I get to hate you
I get to unravel noe
You know I start breakin' things
Every time I start breakin' down

Oh don't try to kiss me
You know that always works
But baby I swear if you're gonna go there
You're gonna taste the hurt

(Repeat Chorus)

Don't you miss being here
Don't you miss being us
No one else gonna love you this much
