[feat. Freeway and Young Chris]

[Chorus:]

I got the hood on my back, back  
I got the city on my back, back  
I got the game on my back, back  
I got the world on my back, back  
Everybody move back, back, back, back, back  
Tell them haters move back, back, back, back

[Verse 1: Sha Stimuli]

I'm back like I never left  
You might have never heard of me or we have never met  
But that's fine, got my whole hood behind me so it looks like a rep a set  
If I make it, they make it so I never rest  
Got the fire arms out like a sweatervest  
And there's nothing that could stop me except for death  
And even then I'll keep goin' on the internet  
Bragging that I'm still the best, music gives me endless breath  
If I'm gone to Heaven or to Hell yo  
I still hit the booth and I tell jokes  
I stick to the script like I'm velcro  
Classic when I spaz I'm like shelltoes  
Talk in 3rd person like Elmo  
Stimuli's everywhere, he be in the D  
Run thru the A catch him out in Philly with Free  
Or down in the H-town, or Miami with heat  
You know BK's riding with me!

[Chorus]

[Verse 2:]

Try Lesly the gat bustin' I'm daring y'all  
You can't touch me, my back husky from carrying y'all  
Sitting with the flow so nigga you can't hate  
I'm readjusted with Just, let's get a few things straight  
Me and Stimuli energize like that bunny you don't want

a run-in  
'Cause my gun will put an end to guys.  
Even in Lebanon, ain't no freezing this shit  
You think not, you must be higher than the starship  
enterprise  
Realize I'm fresh off the streets of Mecca  
Was rocking open-toe chanclettas and taking notes  
from the lectures  
And bring it back to the block, share the wisdom with  
my boys  
And when it's drama, I'm still on point with the weapons  
Suggestion, you shouldn't test him, I'm on my grind  
and  
When it's crunch time, ain't nothing to bring the noise  
Call Gunna up, it ain't nothing to bring my boys

[Young Chris:]  
You know how the boys too, we spending money like  
Floyd too
