See I know how it feels to wake up fucked up Pockets
broke as hell, drinking smoking L's Got these O's to
sell, got these stories to tell I can't control myself I
don't need no one else And I don't feel to well I think
it's a phase God, I feel old as hell I be forgetting my
age I live for the day I look for tomorrow I'm feeling the
pain I mix it with sorrow Picture the horror my
horoscope is pure bullshit It just be tearing my ego,
feels like it keeps saying Cancer and I swear I'm a Leo I
shoot like a Sagittarius float like an Aquarius Dying is
like the scariest feeling I stare at the ceiling And think
about the life after this life that I'm living All the sins I
committed praying that there forgiven All the shit I did I
wish that I didn't The verses I spitted the bitch's I hit the
doe I was getting I'm sorry man I close my eyes and
pray to touch the sky wherever I'm at I never take the
day for granted because I no better than that I
understand that life is something that you can never
get back If sleep is the cousin of death I guess his
nephews a nap You no I stopped taking O's close to 8
years ago I be awake 24 hours straight and when I
dose I be shaking and racing it feels like I'm sinking
Mutha fu*k sleep I don't even like blinking I can't stop
drinking it washes my fears And I no what ya'll thinking,
this niggas scared! Nah! I cherished every second and
I step with heavy weapons And I heard of hell and
heaven but I don't know where I'm going Please forgive
me while I'm talking I don't know if I'm flowing I'm really
venting on a track see this is deep what I'm throwing I
no it sounds like I'm babbling but look how I'm raping I
want to no what's after platinum, god please tell me
what happens I'm scared Just understand I wake up
with this sick feeling deep inside of my mind It makes
me feel I'd go insane if I didn't write it in rhymes It's
like final destination where everything is a sign I walk
the streets like everything's fine, but I'm not I stay with
two glocks ever since them niggas shot Tupac The first
time that's why I always try to kick my worst rhymes
Because the best die young see them death signs
come My writings are so ill it makes my whole left sides
num Damn look where I'm from Brooklyn blocks are like

imprisonment Now I no why Biggie used to tote glocks
to christenings And envision your grave plot and
people not visiting Stimuli was just here and anit
nobody missing him Moms crying over the casket
screaming bastard My friends saying it anit that bad
sounding sarcastic Death is kind of pleasant, there's
questions nobody's asking When, where, how I don't
want to die
