[The Karma Killers]

You're beautiful
With the shiniest diamonds in your ears
You can't hear your mother she's crying in the other
room
She knows it won't be okay
Farther from her daughter with the coming of the days
So you pick up your books, that you never read
Run off to school like a good drama queen
Do you care where you're going, or know where you've
been?

[Ms D]

Our faith is placed in second chances when we're 18
As the angel and her demons dance it's
Like you're 18 years in with no way out
And you're the star of the story you don't care about
Just a little girl in a bigger world turning upside-down

Our faith is placed in second chances when we're 18
As the angel and her demons dance it's
Like you're 18 years in with no way out

[The Karma Killers]

You're beautiful
With your brand new clothes
Like armor from your head, from your head to your
toes
You keep it all inside so that nobody knows
Your heart's on fire, people blind to the glow
And all these boys are thirsty for your outsides
You never care to ever let the right ones in
They're taking from you something that is sacred
I watched a car crash but I just can't take this
Do you remember every now and then?
We used to play guitar and sleep all day
Do you remember me back in the day?
Being lazy and I wouldn't care
Well every thing's changing
Those days that were easy
Just keep getting farther

I've been pretending
I'm not getting older
But I can't fight it
Time keeps passing

Ditchin' school almost every day
And we had fun but now we're all just scared
I stood by somebody else and then I stood by you
I couldn't move my legs, I didn't know what to do
I fail to find the words, I try hard to be cool
I die to hear your voice, it's smoothly ringing in the
room
I see you a surgeon in the looks, what could you
possibly see in me
I lost the job I had, who picked me up when I'm more in
doubt
You know I'll let you cut me up, I know you hate to see
me bleed
Is it the color of my blood or me in the complete?
Did I tell you I was premature? I'm not fit to follow rules
I always fuck things up I guess that makes life more
interesting
You think that I'm absurd, well certainly with you
I am absolutely assured I am ill conceived
There is always something wrong but I need to see it
through
I don't mean to be obsessed, I don't need to be
amused
I can't stand to be a stain that needs to be removed
If I sacrificed myself then I'd know I never knew you

With thirteen I woke up from a dream
Things were not the same well you know what I mean
You know it's strange I never felt this way
And now everyday my world begins to change
I wanna do all the things they tell me not to do
And it's true I'm gonna find out something new
These bitches are coming with the 8-baller
Well, I was hoping I could crash the course you made
out of imagination
Feel it? Do you feel it?
Cause I don't wanna get by, get by, get by.
If pleasure is the ultimate weapon
Then what's to say about all the pain?
With passion like a school in session
You better think up something clever to say
You look desperate
Befriending the "cool kids"
Cause how long will the popular take?
The tension's building up like a fever
You got to wonder when the hell it'll break
You got me fucked up but whatever floats your boat it
is the age that you're becoming
