[Sryan]

It feels like they're coming at me, from all sides  
It feels like I've got nowhere to run, nowhere to hide  
It feels like I'm never good enough  
It feels like I'm always just trying  
Sometimes I feel like I should give up

[Sean]

And sometimes I feel like I'm dying  
I'm tracing my steps back to before I fell apart  
Always knew times would get tough, never thought  
they'd get this hard  
Sometimes I feel like giving up  
But sometimes I'm still holding on  
To late nights in the car

[Chorus]

Inside of a perfect storm  
That's left me with my sails all torn  
Refusing any chance to bail  
All my lines are frayed and frail  
And now we have to evacuate the whole planet  
Because I think the Earth is falling to pieces  
Inside of a perfect storm  
That's left me with my sails all torn  
Refusing any chance to bail  
All my lines are frayed and frail  
And now we have to evacuate the whole planet  
Because I think the Earth is falling to pieces  
It is falling to pieces

[Beat Break]

[Adam E]

I see you coming up the drive  
That's when I know that I'm alive  
And all the things we'll leave behind  
We finally found what we can find  
I have a bad feeling about today

[Evan]

The waves keep crashing at my door  
'Til I can't hear them anymore  
And all the time I gave away  
Made me who I am today  
I hope nothing bad is gonna happen today  
I just hope it's a normal day

[Chorus]

Inside of a perfect storm  
That's left me with my sails all torn  
Refusing any chance to bail  
All my lines are frayed and frail  
And now we have to evacuate the whole planet  
Because I think the Earth is falling to pieces  
Inside of a perfect storm  
That's left me with my sails all torn  
Refusing any chance to bail  
All my lines are frayed and frail  
And now we have to evacuate the whole planet  
Because I think the Earth is falling to pieces  
It is falling to pieces

[Beat Break]

(The rest of my life is falling to pieces)  
(The rest of my life is falling to pieces)  
(The rest of my life is falling to pieces)  
(The rest of my life is falling to pieces)  
(The rest of my life is falling to pieces)  
(The rest of my life is falling to pieces)  
(The rest of my life is falling to pieces)  
(The rest of my life is falling to pieces)  
Because I think the Earth is falling to pieces  
It is falling to pieces

[Beat Break]
