[Sryan]

In sunshine's view  
The absence of love  
Behold what's blinding you  
Serpent or dove  
Between uncertainties  
Tethered wings and captive dreams aren't worth the  
suffering

[Sean]

Open your eyes  
Devotion deprived  
Deny the very thing that you've accepted this life is  
about  
Listen to my words  
Defy devotion  
Sick from the fall behind the wall  
So I demand of you, stand up and see

[Nathan]

Before they saw what I was becoming  
Before it kept me from reaching...

[Chorus]

Before we go out on our one night to the concert  
We must light em up  
The light  
Can't seem to understand it  
We must light em up  
Can't seem to know  
Listen to the vacant soul  
The child has lost his way  
We must light em up

[Adam E]

Tension  
Suffering the hole  
Something against me  
I won't try  
Never again  
I will not remember

Between the lines I sing with doubt  
Behind this will fall

[Adam M]

Lost in night and day  
Breathing for me  
Listen to the way I enter the world  
In time this lie will become me  
The things I've done to forget my dying senses  
Weary from this act alone

[Evan]

Before they saw what I was becoming  
Before it kept me from reaching...

[Chorus]

Before we go out on our one night to the concert  
We must light em up  
The light  
Can't seem to understand it  
We must light em up  
Can't seem to know  
Listen to the vacant soul  
The child has lost his way  
We must light em up

[Sean Paul]

And I will be the lighthouse in your sea  
That's guiding you home  
And I will be the lamp unto your feet  
When you roam  
I will be the sun up in your sky  
That's keeping you alive  
I will be the headlights in your night  
When you drive  
I see the future is less and less there  
And the past has vanished in the air  
And I'm left in the now with a wondrous glow  
I think I'm still me but how would you know?  
It takes a few moments of whirling around  
Till your feet finally leave the ground  
And fending off fears and heeding the call  
And finally waiting for nothing at all

[Chorus]

Before we go out on our one night to the concert  
We must light em up  
The light  
Can't seem to understand it  
We must light em up  
Can't seem to know

Listen to the vacant soul  
The child has lost his way  
We must light em up

Before we go out on our one night to the concert  
We must light em up  
The light  
Can't seem to understand it  
We must light em up  
Can't seem to know  
Listen to the vacant soul  
The child has lost his way  
We must light em up
