[Sryan]

I want more
More more more
My highs feel low
So I'll go home

To live my life
To live my life

[Ludacris]

I know
My thoughts won't grow
But the cliches go
I know my friends
Has no depends
My thoughts may run
I tell you baby, this is no way to live
Make sacrifices, til there's nothing to give
Everyone says there's rules to obey
I can't follow when things never change
Holding my chequebook, got a leak in the pipe
Food on the table, but the landlord's knocked twice
I want more than the shit on my back
I've worked too hard just to repeat the past
Satisfaction can be hard to find
I go crazy keeping it all inside

[Nathan]

I want more
More more more
My highs feel low
So I'll go home

To live my life
To live my life

Ain't nobody's business
How I live my life
I learnt my lesson
Whether it's wrong or right
Ain't nobody baby

To live my life

[The Karma Killers]

Gonna tell me how
I should live my life
Do it my way now
The roof is leaking, stack of pillows on my bed
No way to wake up, all the dreams in my head
Phone doesn't ring, got no man on the line
Things could be better but I still feel fine
Who can say what tomorrow will bring
You give nothing, expecting everything
I was thrown in the game in '76,
By the year '93 I was in the mix,
Knee lan key said we had bad ways
Old folks say we gon shaun our days,
Now I'm puttin in a laugh with the goverment,
Now I'm bein watched by the goverment,
Still bein watched by the goverment
A town, Westside I represent,
And all that hatin is irrelevant

[Evan]

I want more
More more more
My highs feel low
So I'll go home

To live my life

To live my life

Ain't nobody's business
How I live my life
I learnt my lesson
Whether it's wrong or right
Ain't nobody baby

To live my life

[Ludacris]

I been gettin my blessings ever since
Aint sayin im a angel but im heaven sent
Theres a war going on in Newaga Streets
Still going on in Shilver street
Why things gotta be the way they be?
I thought Abe Lincoln said we was free
From the things I see, that can not be
In the court room yeah where, roam, we
This violence, it makes me breathe deeper (Breathe
deeper)

This confidence, it makes me see more clearer
This is my life, a life of no regrets (No regrets)
It will have this sweet taste 'til the bitter end
'Til the end
I realize I'm going to die the greatest death
For the inevitable fears only one and it's me
I will take this life beyond the horizon

[The Karma Killers]

I want more
More more more
My highs feel low
So I'll go home

To live my life
To live my life

Ain't nobody's business
How I live my life
I learnt my lesson
Whether it's wrong or right
Ain't nobody baby

To live my life
