It was not a normal execution,
Not a shed of ordinary blood.
Oh, the victim was the hope of life eternal,
His life had now been taken by His love.
The believers in that hour felt rejected,
Not a single living breath of hope.
They cried for days in anguish to the Father.
Now one could see the miracle He had in store.

He was not worried, He was never afraid

Chorus

God was still on the throne, God was still on the throne.
Through the darkest hour, He was in control.
God was still on the throne.

As children of the father we encounter,
Trials of fire that burn our hearts within.
But with the Lord we can walk through the furnace,
And claim the victory we have in Him.

There's no need to worry, and no need to be afraid

Chorus 2

God is still on the throne God is still on the throne
Through your darkest hour He is in control
God is still on the throne

Bridge

Just like Daniel in the lions den,
and like David with Goliath's men,
The Spirit that was with them,
It is still conquering the power of Sin.

Chorus 2
