Last train to Heaven, well, I caught it just in time  
Pullin' out of New Mexico, that's where I did my crime  
I made a man swing from a necktie made of twine  
But they'll never catch me 'cause I jumped this number  
nine

It'll all be fine, wait a minute  
Stop this thing  
Some Cajun hoodoo fate  
This train is loaded down

Gotta cargo full o hate, I axed them where it was  
This speed ball liner's bound and they were laughing  
hyenas  
As they pointed to the ground, we're going down  
Last train to heaven, what a goddamn fool I been

Open up that burnin' stove for a shovel full o sin  
Fear is the conductor all aboard  
The Black Diamond Express train straight to Hell
