

Uriah Heep "All God's Children"

Visit "[All God's Children](#)" on MotoLyrics.com

Crazy little whirlwind child
Pretty babies drive you wild
Look like one, act like another
Every night a different lover

Get affection where you can
Try a boy then try a man
First time love is in the past
Make it young and make it fast

All God's children will have their say
All God's children must have their way
All God's children will have their say
All God's children must have their way

It's a game where you can cheat
Lovers falling at your feet
High on sensuality
A photograph for all to see

First time love is in the past
Make it young and make it fast
They can never get enough
Strong as death and sweet as love

They walk and talk like angels

All God's children will have their say
All God's children must have their way
All God's children will have their say
All God's children must have their way

They walk and talk like angels
They walk and talk like angels

All God's children, God's children will have their say
All God's children must have their way
All God's children will have their say
All God's children must have their way

All God's children will have their say
All God's children must have their way

All God's children will have their say
All God's children must have their way

All God's children will have their say
All God's children must have their way
All God's children will have their say
All God's children must have their way

All God's children will have their say
