I had a little look for a minute today
And I told here there was something that I wanted to
say
Just sitting there glowing, with her red light on
So I gotta move fast and it shouldn't take long

Maybe she will? Maybe she won't?
You get yourself together 'cause she doesn't say don't
I never ever thought I was looking for a wife
But I think I can love her for the rest of my life, yeah

I only took one 'cause I couldn't take two
I want to make love and it's gotta be you
Every little thing that I ever tried to say
Is coming out right in my own kind of way

Take it, make it, the weather feels fine
She must be lady luck and she's gonna be mine
I never ever thought I was looking for a wife
But I think I can love her for the rest of my life, get it

I will love you all my life, I will love you all my life
I will love you all my life, I will love you all my life
I will love you all my life, I will love you all my life
I will love you all my life
