

Uriah Heep "First Touch"

Visit "[First Touch](#)" on MotoLyrics.com

I dreamed of all
The wonders in the world
And lovers that I knew
I saw so many good things
At one time
Mountains of emotion
Coming right into view

When I arose from my bed
I got that warm glow
At the back of my head

First touch, feel the power
Hear the thunder over me
First touch, out of nowhere
See the future over me
Then I dreamed about
The tenderness we shared
And how it makes us feel
Like every first encounter
That we have
When I think I must be dreamin'
You tell me that it's real

And here you are in my bed
I get that warm glow
At the back of my head
