

## Uriah Heep "Holding On"

Visit "[Holding On](#)" on MotoLyrics.com

Lost, lost like a precious flame  
The ashes burn on  
The ghost of a love we had  
Tries to hold on, tries to hold on

No communication  
All systems are down  
No new conversation  
Never a sound, never a sound

What's the point in holding on?  
When the spirit is gone, holding on  
What's the point in holding on?  
When the spirit is gone

Cold, cold as the empty night  
Deep in your eyes  
I know there's no truth, no light  
Only your lies, only your lies

What's the point in holding on?  
When the spirit is gone, holding on  
What's the point in holding on?  
When the spirit is gone

The circle's broken, the damage is done  
The crystal lies smashed on the floor

Your presence has left me now  
Your spirit has gone  
The ghost of a love we had  
Tries to hold on, tries to hold on

What's the point in holding on?  
When the spirit is gone, holding on  
What's the point in holding on?  
When the spirit is gone

What's the point in holding on?  
(The circle's broken, the damage is done)  
When the spirit is gone, holding on  
(So what's the point in holding on)

What's the point in holding on?  
(The circle's broken, the damage is done)  
When the spirit is gone  
(So what's the point in holding on)

What's the point in holding on?  
(The circle's broken, the damage is done)  
When the spirit is gone, holding on  
(So what's the point in holding on)  
What's the point in holding on?  
(The circle's broken, the damage is done)  
When the spirit is gone  
(So what's the point in holding on)

What's the point in holding on?  
(The circle's broken, the damage is done)  
When the spirit is gone, holding on  
(So what's the point in holding on)  
What's the point in holding on?  
(The circle's broken, the damage is done)  
When the spirit is gone  
(So what's the point in holding on)
