When we're together we're just friends  
Tellin' stories about all of our plans

Where do we go from here  
When I am all around you

Plenty of sunshine  
Waitin' for a cloudy day  
The way that your eyes glow  
Plenty of summer days

When we're together I believe  
That we will someday that we will have all of our needs

Where do we go from here  
When I am all around you

Plenty of sunshine  
Waitin' for a cloudy day

The way that your eyes glow  
Plenty of summer days

I can see angels flyin' high  
I can see flowers growin' all the time

Plenty of sunshine  
Waitin' for a cloudy day  
The way that your eyes glow  
When all summer days

Plenty of sunshine  
Waitin' for a cloudy day  
Plenty of sunshine  
Waitin' for a cloudy day
