My life is going

It's almost gone

I want to die now

I dream of you from dusk 'til dawn

Chorus: I need you to hold me

I need you right here

I want to stay in your arms

I need you to dry my tears

I want to be with you

To be here with me

To cheer me up

To dry my tears

Chorus

This world doesn't care

I know that you do

I know that you love me

You know that I love you

Chorus X2
