"Three O'clock In The Morning"

Well it's three o'clock in the morning
And I kinda feel like yawning
And I kinda wish that you were here to stay (hey hey)
Cause at three o'clock in the morning
I should be with you till the dawning
And I kinda feel like crying more each day.

Has it been so long?
Writing down this song?
Excuse me while I make my next correction
Singing till I'm green
Wish I could have seen
My interest taking time to make connection
Make connection, yeah

Well it's three o'clock in the morning
And I kinda feel like yawning
And I kinda wish that you were here to stay (hey hey)
Cause at three o'clock in the morning
I should be with you till the dawning
And I kinda feel like crying more each day

Well it's three o'clock in the morning
(yes it's three o'clock in the morning)
well it's three o'clock in the morning
(yes it's three o'clock in the morning)
