Move with precision, decisions to make, fakes to shake  
Talk a good game but yo, your stash ain't no wins  
I'm in the biz of makin' it big and express myself  
Through jams that they even bop to in Japan, my man

Change for a dollar so I can make this call  
Get my money correct 'cos I been broke too long  
Gotta keep it legit, can't be locked for years  
Find me a 9 to 5, blood sweat and tears

But can it work boss man smack the jerk for tryin' to  
jerk me  
Thinkin' I can't see inconsistency in my currency  
Now I'm back out on the street  
Walking these dogs for ends meet, life's not sweet

But I still rock rhymes to beats  
Put it together maybe we can make an explosion  
But it takes time, record labels mess up your mind  
You could press rewind and catch a dose one more  
time

Caught up in a struggle  
You got me caught up in a struggle like that, man  
Caught up in a struggle  
You got me caught up in a struggle like that, like that

Caught up in a struggle  
You got me caught up in a struggle like that, man  
Caught up in a struggle  
You got me caught up in a struggle like that, like that

Gimme mine and I'll spark the chart like flint  
Money spent back to start, who wants parts of this  
Crisp on compact disk but don't you diss the vinyl mix  
I got the hook up at the crib

That's my escape from this world today, watch 'em  
blow up  
Then deflate like a souffle, I see it every day, all day  
I'm out for the gold, forget the silver and the bronze  
Gotta make dough, send home to wifey and moms

Invest in real estate, computers and all this  
Plan's flawless, bumpy roads, I'm ready  
So all you fakers get jetty or get chopped up like  
confetti  
I'm on a mission for this permanent position

Caught up in a struggle  
You got me caught up in a struggle like that, man  
Caught up in a struggle  
You got me caught up in a struggle like that, like that

Caught up in a struggle  
You got me caught up in a struggle like that, man  
Caught up in a struggle  
You got me caught up in a struggle like that, like that

On the bricks, scuffed up kicks, not a hint of dough  
Lost my job, now I'm livin' like a slob  
Re-plan regroup, gotta hook up with my make money  
troops  
Two scoops of loops, studio, time to blow

Hip-hop scene flooded, everybody gettin' blunted  
A&R's frontin', guess I gotta prove somethin'  
Over percussion, Shabaam Sahdeeq rushin' like the  
Kremlin  
Got MC's tremblin' in their lab, take a stab at me

Superior with word play  
Stress overtakes the fakes everyday all day  
Rugged like Broadway, no time for horseplay  
In the struggle don't you lower your level

Gotta take charge like credit, need to start talkin'  
aesthetic  
'Cos when you lose your chance you will regret it, get it  
Lyrics embedded in your head like memories  
Remember these Us3 melodies

Caught up in a struggle  
You got me caught up in a struggle like that, man  
Caught up in a struggle  
You got me caught up in a struggle like that, like that

Caught up in a struggle  
You got me caught up in a struggle like that, man  
Caught up in a struggle  
You got me caught up in a struggle like that, like that

Caught up in a struggle

You got me caught up in a struggle like that, man  
Caught up in a struggle  
You got me caught up in a struggle like that, like that

Caught up in a struggle  
You got me caught up in a struggle like that, man  
Caught up in a struggle  
You got me caught up in a struggle like that, like that
