And after everything that we've been
Through I'm still here with you
Cuz you're still my lady
Cuz you're my lady
I swear I'm gonna make you happy
For the rest of my live
Cuz you're my lady and I'm your best friend,
And I'm your best friend

In times when all hope is gone
And sadness fills your
Heart with pain
You wonder (yeah)
If there's anyone
That you can call
To somebody who's left
All alone

You're surch a loyal friend
And now I know that I'll never
Find sombody quite like you
I appreciate the day
You came and you stayed

And after everything that we've been
Through I'm still here with you
Cuz you're still my lady
Cuz you're my lady
I swear I'm gonna make you happy
For the rest of my live
Cuz you're my lady and I'm your best friend,
And I'm your best friend

Some people said that we never survive,
We showed them that
Dreams can come true and it's for sure
Ouer secret lies behind an endless
Friendship and mothing could tear
Us apart

You're surch a loyal friend
And now I know that I'll never

Find somebody quite like you
I appreciate the day
You came and stayed

And after everything that we've been
Through I'm still here with you
Cuz you're still my lady
Cuz you're my lady
I swear I'm gonna make you happy
For the rest of my live
Cuz you're my lady and I'm your best friend,
And I'm your best friend

True love is so hard to find
Especially if it's someone
You can call your best friend
No matter what problems occure
You will overcame them with her

And after everything that we've been
Through I'm still here with you
Cuz you're still my lady
Cuz you're my lady
I swear I'm gonna make you happy
For the rest of my live
Cuz you're my lady and I'm your best friend,
And I'm your best friend
