### "Best Friends"

And after everything that we've been  
Through I'm still here with you  
Cuz you're still my lady  
Cuz you're my lady  
I swear I'm gonna make you happy  
For the rest of my live  
Cuz you're my lady and I'm your best friend,  
And I'm your best friend

In times when all hope is gone  
And sadness fills your  
Heart with pain  
You wonder (yeah)  
If there's anyone  
That you can call  
To somebody who's left  
All alone

You're surch a loyal friend  
And now I know that I'll never  
Find sombody quite like you  
I appreciate the day  
You came and you stayed

And after everything that we've been  
Through I'm still here with you  
Cuz you're still my lady  
Cuz you're my lady  
I swear I'm gonna make you happy  
For the rest of my live  
Cuz you're my lady and I'm your best friend,  
And I'm your best friend

Some people said that we never survive,  
We showed them that  
Dreams can come true and it's for sure  
Ouer secret lies behind an endless  
Friendship and mothing could tear  
Us apart

You're such a loyal friend  
And now I know that I'll never  
Find somebody quite like you  
I appreciate the day  
You came and stayed

And after everything that we've been  
Through I'm still here with you  
Cuz you're still my lady  
Cuz you're my lady  
I swear I'm gonna make you happy  
For the rest of my life  
Cuz you're my lady and I'm your best friend,  
And I'm your best friend

True love is so hard to find  
Especially if it's someone  
You can call your best friend  
No matter what problems occur  
You will overcome them with her

And after everything that we've been  
Through I'm still here with you  
Cuz you're still my lady  
Cuz you're my lady  
I swear I'm gonna make you happy  
For the rest of my life  
Cuz you're my lady and I'm your best friend,  
And I'm your best friend
