### "If You Leave"

*[INTRO:]*

Baby girl, when you're all alone  
Do you think about us all  
You, gotta let you know, US5, if you leave, come on  
Baby, if you leave, if you leave me girl  
If you leave, if you leave me girl, first verse

*[VERSE 1:]*

Why does my heartache rise  
Why do my feelings die, when you're around  
(Damn, I just can't help you it girl)  
Why do you make me cry  
When all that I can try is findin' the key to our love

*[CHORUS:]*

If you leave me here on my own  
I just gotta let you know, I just gotta let you know  
If you walk right out of my life  
I'll be cryin' every day and every night

*[VERSE 2:]*

Why are the others blind  
Why can't they see, that we were made for life  
(We were made for life)  
Why do we fuss and fight  
When there's no need to hide, our feelings come right  
from inside  
Don't let your feelings die, we gotta realise  
That everything around got so cold (Oh so cold)  
We gotta make it right, let us be unfied  
I just gotta let you know, oh no

*[CHORUS:]*

If you leave me here on my own  
I just gotta let you know, I just gotta let you know  
If you walk right out of my life  
I'll be cryin' every day and every night

*[B - CHORUS:]*

I'll be wandering through the morning', evening light

Aint' no stoppin'till we get it oh so right  
I'll be walking through the morning', evening light  
I'll be cryin' every day and every night

*[VERSE 3 2x:]*

Babygirl, when you're all alone  
Do you think about us at all  
Come on girl, gotta make this right  
Everything that I do for life

*[CHORUS:]*

If you leave me here on my own  
I just gotta let you know, I just gotta let you know  
If you walk right out of my life  
I'll be cryin' every day and every night

*[B - CHORUS:]*

I'll be wandering through the morning', evening light  
Aint' no stoppin'till we get it oh so right  
I'll be walking through the morning', evening light  
I'll be cryin' every day and every night

*[OUTRO:]*

Baby, if you leave me girl  
If you leave, If you leave me girl  
Baby, if you leave , if you leave me girl  
If you leave , if you leave me girl
