We sing this for the children
From deep inside
Our hearts to show them that we care
For their lives
It's us who can make the difference
So take the time
Open your hearts and your minds
To their lives

You should find the time
To help those who fall behind
Give them hope and love to
Ease their minds

Let's give love from the heart
Why wait, now we should start
To help those who need help
Who stand alone by themselves
Let's give love from the heart
Cause we all play a part
Doesn't matter how much
Or who you are
Just give from the heart

We need to make sure their future
Is lookin' bright
It's in our hands to make certain
It's alright
They deserve so much better
So we should try
To bring some hope in their lives
It's their time

You should find the time
To help those who fall behind
Give them hope and love to
Ease their minds

Let's give love from the heart
Why wait, now we should start
To help those who need help

Who stand alone by themselves
Let's give love from the heart
Cause we all play a part
Doesn't matter how much
Or who you are
Just give from the heart
