Richie:

I understood the plan,
Iâ€™m gonna be the man
(You changed my destiny, no doubt itâ€™s plained to see)
One Life is all weâ€™ve got
For made to make you start
(Let's fight for what is right, we make it through the night)

Bridge:

Girls are you ready for me?
Girls are you ready for me?
Girls are you ready for love?
(now everybody dance)

Chorus: Refrain

Donâ€™t let the rhythm die, move your body to it
Donâ€™t let the music die, put your soul into it
Donâ€™t let the rhythm die, move your body to it
Donâ€™t let the music die, put your soul into it

Shake it to the right (oohoo)
Then move it to it
Shake it to the left (oohoo)
Just get into it
Shake it to the right (oohoo)
Then move it to it
That makes the rhythm of life

Richie:

Last night I had a dream
It was a crazy scene
(Music was everywhere, the rhythm took us there)
They moved from all around
Made up a brand new song
(they live in harmony, until eternity)

Bridge:

Girls are you ready for me?
Girls are you ready for me?
Girls are you ready for love?

(now everybody dance)

Chorus:

Don't let the rhythm die, move your body to it

Don't let the music die, put your soul into it

Don't let the rhythm die, move your body to it

Don't let the music die, put your soul into it

Shake it to the right (oohoo)

Then move it to it

Shake it to the left (oohoo)

Just get into it

Shake it to the right (oohoo)

Then move it to it

That makes the rhythm of life

Jay/Chris (rap):

So it feels it gets into it

Girls on the club get into it

You get into it to get into it

'Cause I never heard it feels so into it

All the boys around get down with it

All the girls on the floor get down with it

You're not down with it, get down with it

Get down with it

Everybody even ain't got time to quit

Jay:

Now it's up to you

Make you change your life

So let it through

Look inside your soul, and take control

No one can deny

the rhythm of life

(let's dance, let's dance...)

Chorus:

Don't let the rhythm die, move your body to it

Don't let the music die, put your soul into it

Don't let the rhythm die, move your body to it

Don't let the music die, put your soul into it

Shake it to the right (oohoo)

Then move it to it

Shake it to the left (oohoo)

Just get into it

Shake it to the right (oohoo)

Then move it to it

That makes the rhythm of life
