

## Ohmega Watts

### "That Sound"

Visit "[That Sound](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Pick up that sound {4X}

They did it again, they did it again, they did it again

[Othello + Braille or Rez?]

What you hearin now is not a test (TEST)

Fix body sittin, move with finesse (NESSE)

Don't need to stress the fact that we're fresh

Right this mindstate continue to bless lifes in each state

With rhymes from Stro, baritone in the zone

Othello with the molotic flow, bring the soul home

And the first up greet you is the funky prez

Better know to many as Rez (And he's Off!)

[Rez]

Arrangement and progression and dyamex confession

The man, when we'll crisis to songs in this profession

Assume with the rhythms of life in this complexitis

As simple as sound compulse or most found recipies

Sonically constricted and I ain't even draped it

The soundscapes we make is just to escape it

When styles get old, and the music is sound stated

We write with love and God's appreciation

[Othello]

My buisness is this just to get down (DOWN)

Gotta a lotta bounce and I surround without a doubt

(DOUBT)

Heard of ya fence, hop over ya egyptian style (STYLE)

Brother man is passin what you fillin in the sound

When we release, make city boys shout (SHOUT)

Country bumpers, bumpin and move somethin out

(OUT)

It's the method of The Procussion and Lightheaded direction

Brake me blessin and in this session will last the

impression

[Stro The 89th Key]

I'm at war with the composton, written an illa fire

Find a moment of truth, serenaded, I got followed by  
The final movement, transcribed  
Triple me the time G made the dominant seven  
Go inside with the author  
Rhythm and words written to minister  
Hope in the book of life, my key signature's found  
Soon after that you won't see me around  
Wake up y'all, here comes that sound  
Are you listenin'?

[J + Stro]

Now when we get together to see, hearin the other  
Fresh to the letter, ill vibe go get us  
Turn it out if you let us, now turn it up it get's better  
'Cause the next one is a set up, MC's to flex nice  
Trail with the passion of delivery endless  
The J make 'em say, "man I'm feelin the jam"  
Ohmega Watts make the body rock hotter than july  
Turn it up a notch, put your hands to the sky  
Like AAAAAAAAAAAAAHHH

[Braille]

Liquid, lyrical Braille, I illuminate the back drop  
Get open over the track cocked back, and blast off  
??, ?? spittin rap and wisdom  
Got Dj's scratchin and itchin' as I appears the vision  
Shockin and rockin it, Ohmega Watts, mega hertz  
An electric surgeon, mention from the underground  
emurstin  
God's workin first, and with the rhythm rippin till I burst  
If you thirsty chickens let me purify the verse

[The J]

Yo yo!  
Hear the god giving rhythm your heartbeat  
Driven of 4/4, this is what the musicians was called for  
The soundwall we bound on the pound drunkskin  
Me and the melody tellin me we standin for somthin  
(THE PROCUSSION!) Just a part of the R  
The started doin the father part of lightning the dark  
We write in the marque, ignigting the mic with a spark  
Soul literature pick through what he write from the  
heart

[Ohmega Watts]

I got juice, supply, amplify by the mega watts  
I'm ohmega, watch me and the crew (ROCK RHYMES!)  
In a classic school fashion, long lasting flavour  
Tell a friend, tell a neighbour (THAT)  
Misbehavior's not factor when we master the art  
And control crowd bringing the sound heard from

miles around  
Travelling through the ground, got soul by the pound  
Spread the word or tell about this fresh sound that you  
found

[Noelle]

Pickup.. pickup that sound.. They did it again, they did it  
again {4X}

Sound off!  
Braille Brizzy and i'm blessin the mic.  
Rezinint in the place and we keepin' it hype.  
Sound on...

\*Scratches\*

Sound off!  
Ohmega watts, chop, dig and design  
Yo! This the J only livin' to shine  
Sound on...

\*Scratches\*

Sound off!  
Othello with the heart in the rhyme  
Stro the 89th key but my real name's Brian

\*Scratches+ "We're off!" + fading\*
