It's 2 a.m. in town hall station

Black walls and sleeping drunks are bad companions

Ice is there

Fear is there

Everyone's nowhere now, there's too much of nothing

Take me away

Take me away

It's 9 a.m. in town hall station

Flashing faces and grey herds, no companions

So sorry

So straight

Everyone's nowhere, there's too much of nothing

Take me away

Take me away
