U.S. Bombs
"Don't Take It Back"

I heard you're angry because there's a 'cause
Don't you remember what you're fighting for?
They're gonna take you to bed
They're gonna give you one for free

The side is lookin' good and they wanna turn you on
Turn you on, try not to take a walk
With all the other weeds just across the railroad track
Wino country, they're all giving up, we've gotta move
on

What about you? I gave my word, it's in the blood
Don't take it back, don't take it back, back in
You let it smash till there's nothing left
You're just an adjective, don't take it, back, back in

Don't take it back, don't take it back
Don't take it back, don't take it back
