God bless the police invisible marines  
Your state isn't safe and niether is me  
We're the rats of experiment  
Suburban laboratore  
We're the mice without legs  
Tagged at birth

Laboratory rats  
This is a lab

The scientist he's your god  
The scientist till we're gone

The science fair's continual  
Aliens are having fun  
They let us go a bit in  
Our own time zone

Science bless computer chips  
God bless your families  
Science bless your little pets  
It's time to come clean
