"Verse 1

Shes great she rocks the latest style
Shes great she more than worth your while
But therere more to her than fancy hair and lacy
underwear
Shes great whats not to fall in love with
Shes great she gives hope to the hopeless
There was more to her than trendy scenes and those
pricy torn up jeans

Pre-chorus

And all she gave me was everything
Go back, Go back, make it work

Chorus 1

I would gladly take the fall for you
But youre letting us go for the new frontier
Youve turned into a beautiful little fool
Wake up

Verse 2

I used to think I could enchant her
But her types a different kind of candor
The ones that put their work suits on and speak in third
person
Its funny dumb just goes with dumbe
Were stuck in odd and greenish numbers
They lost it in the Woodstock days and were societys
mistake

Pre-chorus

And all she gave me was everything
Go back, Go back, make it work

Chorus 2

I would gladly take the fall for you
But youre letting us go for the new frontier
Youve turned into a beautiful little fool
Wake up

Bridge

Shes great she rocks the latest style
Shes great shes more than worth your while
There was more to her than paperwork and pricy
useless wars

Pre-chorus 2

And all she gave us was everything
Hold back, Hold Back, let her go
