"It's Time To Say I Love You"

Visit "[It's Time To Say I Love You](#)" on MotoLyrics.com

When you know that love is right
You gather dream bouquets
And one or two will drift away with you
Through all your colored days

And time is warm and meadows sweet
Like sunlight through the trees

The clouds go by
Just howlin's in the sky
On whispered days like these

When summer smiles
On everything you do
It's time to say I love you

(Repeat 2nd stanza except first 2 full lines)
(Repeat last stanza except last three words)

..I lo.....ve you
