Tomorrow today
They'll make you anyway
Take it if you must
Tomorrow or today

Wake up
It's time to die
In the most cartoonistic way
Stop messing around
Just follow your voice
That will end in a choice

Tomorrow Today
They'll take it anyway
Take it if you must
Tomorrow or today

Wake up
It's time to dine
In the most cartoonistic way
Stop messing around
Just follow your choice
That will end with your voice
On 02/ 20 /2002
The light won't help them
They make the weapons
And show me where to shoot

Tomorrow or today
They'll take it anyway
But take it if you must
Tomorrow you're going to pay

Tomorrow you're going to pay
Tomorrow your going to for today
Or you're dead
