Well they let me out that place I was  
I was being good because  
There aint nothing to do from night till noon  
Then sit here in my nice soft room  
The doctor said he'd fix my head  
I'm gonna shout so loud I'm gonna wake up the dead

Well those great minds the cant be wrong  
Though I've been crazy all along  
Now I'm normal just like you  
Tell you what I'm gonna do  
Find a wall and bang my head  
Then I'll shout so loud I'm gonna wake up the dead

I'm gonna find a bar and a woman to  
And have a real good time  
Gonna jump and shout and knock myself out  
Yeah really lose my mind  
Get so crazy out of head  
And shout so loud I'm gonna wake up the dead

Then they take me back again  
But you said that I was sane  
Take be back and lock me up  
And make sure that the doors tight shut  
The walls are soft I cant hurt my head  
But I can shout so loud I'm gonna wake up the dead
