Right before me, you glimmer slightly I can't see
anything else
Where are we ?

Don't disappear into the background beginning to stir
With commotion just yet, I can't hear anything
anymore.
But I can feel you breathe
A little unlike myself I'm expecting something
From a surprisingly coincidental development.

I wanna be here eternally
I want to gaze at you just like this
I can feel you close to me
I can't be by your side forever
Only this moment will last forever.

I want to be with you on my break before I go to war.
We'll leave the promise until next we meet.
Can you hear me breathe?
Everyone has times when they are moved by not so
surprising
Developments.
I wanna be here eternally

In a place no one will find us
I can see you're all I need
I don't need help getting to tomorrow
Even this moment is surely just a fantasy
I can feel you close to me
Even if we can't go back to that place,
At least this feeling will last forever

I wanna be here eternally
I can see you are all I need
Only this moment will last forever.
