I look to you  
And I see that you're aware  
I feel as though  
You can see what's deep inside

Do you ever feel the need  
For the honesty in what you see?  
Do you ever want to know  
What's in store for you and me?

When we lie  
We lie together all the time  
The future's mine

When we lie  
We lie together all the time  
The future's mine

I have never seen  
The honesty in some people's minds  
Only in you  
Did I ever find some thing inside

The loneliness and the broken dreams  
That's what we're going to share  
Everything that is in your face  
I will recognize with time

When we lie  
We lie together all the time  
The future's mine

When we lie  
We lie together all the time  
The future's mine

Ohh, ohh  
(When we lie)  
Ohh, ohh  
(When we lie)

Everything that is in your face

I will recognize with time

(When we lie)  
Everything that you've ever done  
You will do to me

When we lie  
We lie together all the time  
The future's mine

When we lie  
We lie together all the time  
The future's mine

When we lie  
We lie together all the time  
The future's mine

When we lie  
We lie together all the time  
The future's mine
