You can't recall the name  
But the tune is still the same  
Life must be a game  
So try to shift the blame  
There's a better way to live  
Receive what He has to give  
The music is the voice  
You've got to make your choice  
REFRAIN:  
It's a song in your ear  
That you've been longing to hear  
It's the words you want to know  
And He'll be there to show  
CHORUS:  
You that He cares  
And He will help you out  
You'll see His love  
And know that there's no doubt  
You've gone so long  
Gone so long without...  
His song in your heart  
There's no reason why  
Someone like you can't try  
His sweet song of love  
He sent you from above  
BRIDGE:  
Your cold heart He will break  
Your sadness He will take  
There's a reason in your mind  
With the answers you must find  
{Repeat Refrain and Chorus to end }
