"By My Side"

I know i am no good, but I I know that your grace is on
me
trials come and then I fail, why ist all this sin around
me?

I need a perfect love â€¦ I need someone to hold me

come Lord and fill me with your graceall I know is that I
am a big disgrace
because when I see you, you're always by my side

trials and temptations make me want to hide
and when I see your face it makes me want to cry
nothing else really matters because you are by my side

side â€¦ you're always by my side
first love ist where I'll go, but I know it doesn't really
show
when my life is a mess, i realize i must confess
