Burn burn burn  
Burn burn burn  
Burn burn burn  
Burn burn burn  
I'm cookin' up somethin'  
Cookin' up somethin'  
Cookin' up somethin' special for you  
It's on the back burner  
On the back burner  
On the back burner waiting for you  
I'm no burger king, I'm no pizza pie spinner  
Don't come sniffin' 'round here for something to eat  
It's a gourmet thing, not a tv dinner  
So stay out of the kitchen if you can't take the heat

It's gonna  
Burn burn burn - you might get burned  
Burn burn burn - 'cause it's so hot  
Burn burn burn - that you might get burned  
Burn burn burn  
I've got a hot number  
Got a hot number  
Got a hot number bearing your name  
It's such a big order  
Such a big order  
Such a big order turn up the flame  
It's a champagne kiss with a surprise in the middle  
I hope you're hungry, I've been cookin' all day  
Got a love so strong you couldn't squish it with a  
griddle  
Call out the volunteers 'cause my heart's a flambe'

I gotta time it right so it's warm when you get it  
Turn up the heat just a little bit higher  
It was a good idea but I think I overdid it  
I can't reach the oven and the kitchen's on fire
