Can't you see  
She don't want you around no more  
Can't you see  
That her hands pointing at the door

Feet don't fail me now  
How could anyone stay  
Anyone could see it's time to go away

Time to take a powder  
Open up your eyes  
But it feels like my legs have been paralyzed

Feet don't fail me now  
Begging please don't make a fool of me  
Feet don't fail me now  
Please don't keep me where I should not be

Feet don't fail me now  
Stop pretending that you've gone to sleep  
Feet don't fail me now  
Begging please don't make a fool of me

See your things piled in the hall  
Turn around, there's a new picture on the wall  
Feet don't fail me now

We're the last ones to know  
Anyone could see it's time for us to go  
Time to hit the highway

Nothing left to do  
But it feels like my shoes  
Have been crazy glued
