...ignition...the message...faster, faster...
Transmission...engine...he's outa control, look at
The screen there, I can't control the trajectory of
The ship...
Mad men, metal machines

Circa 1995, he did the show, no one's alive
By fall of 1999, [...], look at it shine

Mad men in metal machines
Well look out for the ones with the energy beams

All the joys of working overtime
[...trying to... all of your lives]
Slipping into girls and boys
[...]

[tonight...]
[and ... each other...]
[new gun ... moving faster...]
Better make your move before it's too late

Put away your wheelchair and cane, that you don't
need
Recall that you've been changed
Relax, relax don't bend your mind
[... things will be fine]

Mad men in metal machines
Well look out for the ones with the energy beams
Look at all those men
Watching everybody on the video screen
[...scene]
Watch out for the ones with the energy beam
