CHORUS: Im just in the studio ill call you right back wen
im done
Putting in work im in the booth for the song
Putting in work letting you know he's number one
(Repeat)

VERSE 1: I lay my life down nah nah now i lay my vocals
see me how i do my job i spread teh gospel
no matter what u say im still on my grind all day
and no u cant paul me out like the apostle
they say lola who u with what u wearing and where u
going
i tell them do not concern yourself with knowing
for you people ill be praying you know who you are
no names i will be saying like it or not

PRE-CHORUS: Woah less and less people act right
waoh why they wana be bad mind
i got a message for the world baby im going in
so give me a couple minutes i will give u a ring (repeat)

CHORUS: Im just in the studio ill call you right back wen
im done
Putting in work im in the booth for the song
Putting in work letting you know he's number one
(Repeat)

VERSE 2: Chitta chatta pitta patta isnt really healthy
i keep my eyes on the prize though other things are
tempting
money sex drugs and lies they are not really my thing
i lock myself in the booth and focus on my writing
Keep studying the word and focus on the spirit
if u diligently seek whatever u ask he will give it
receive it because through him all things u can achieve
it
get with it coz u know that time is ticking so get in it.

PRE-CHORUS: Woah less and less people act right
waoh why they wana be bad mind
i got a message for the world baby im going in

so give me a couple minutes i will give u a ring (repeat)

CHORUS: Im just in the studio ill call you right back wen
im done
Putting in work im in the booth for the song
Putting in work letting you know he's number one
(Repeat)

Rap: Im tryna spread the word like a sheet
Franklyn told me try and spread the word via tweet
I put the work in im like a skyver
Ill be all over the microphone like saliva
They don't understand what im about
Them friends let them go go go
What part don't they understand the n or the o o o
Coz im in the booth getting in my zone zone zone
This number is naggin me ends in 4 4 4
Really gotta go go go
Leave me alone alone
Coz im really busy no no no
You don't even no no no
Easy peasy no no no
Lemon squeezzy no no no
Utter once we getting busy i stay on my toes toes toes
Theres none like c'mon
I put him first place C'mon
Ok brudda don't sweat it
Only eight more edits
Oh yea i can't u back
I aint got credit
