[Chorus]

A booger's gonna getcha little baby-baby-baby
A booger's gonna getcha little baby-baby-baby
A booger's gonna getcha little baby-baby-baby
A booger's gonna getcha little baby-mine

It's a sin to treat me like you do-do-do, do-do
If you don't watch out baby
You'll find out
What's gonna hap-hap-happen to you

[Chorus]

You should be ashamed of you're old man
When you do-do-do me like you do
You won't feel so smart when you're playing my heart
When that boo-boo-booger gets you

[Chorus]

Why don't you stay away from them honky-tonks
And them bad-bad-bad boys too
If you come back to stay, I'll scare the boogers away
That's a haunt-haunt-haunting you

Then the booger won't get you little baby-baby-baby
The booger won't get you little baby-baby-baby
The booger won't get you little baby-mine

Oh, please stay away from them honky-tonks
And them bad-bad-bad boys too
If you come back to stay, I'll scare the boogers away
That's a haunt-haunt-haunting you

Then the booger won't get you little baby-baby-baby
The booger won't get you little baby-baby-baby
The booger won't get you little baby-mine
