Translation in English

You've been hurt by unhealing pain and  
Sadness  
Together, let's carry each others  
Incredible pasts  
Don't give up on living!  
I want to protect you and your fading  
smile, so  
We should wither  
Even if it's scratched away by the  
Winds that blow with time  
I will find you  
Who've been hurt by unspeakable pain  
And sadness  
Don't say that "I can't laugh" or  
"I hate people"  
There's meaning in everything to  
Happen in the unseen future  
For now, you're fine as you are,  
I know a time when  
You'll realize it  
You and I too have spoken  
One day we'll understand each other
