[Chorus x 2]

My nigga smoke if you got it  
If you got a gar, gone up and light it  
And if you got papers, papers  
Gone shit, we ain't no hater, haters

(D.J. Paul)

I hate when stingy ass niggas  
Come around when I'm smoking  
Soon as my dope hits the air  
They hands it be open, but last week  
When I was flat out like bed sheets  
You claim that you didn't even have brown weed  
Up on your streets, a let alone these purple hairs  
Like I got right here, I bet you wanna take another stare  
You should've fucked wit me when I was down on my l-  
u-c's  
I kept that K for a rainy day with double clip for assured  
lay  
I hope you's a organ donor cause you a goner  
You tried to keep me from what I wanna  
That light green, red haired marijuana  
Make me drive that four-forty hours to California  
I'm back smoking, I took a chill pill for a minute  
But just like Popeye, I ain't shit if I ain't gots me spinach  
So next time don't try to hide it dog, you smellin' like it  
And put that shit in the wind, we all like it

[Chorus x 2]

(Fiend)

My nigga smoke, smoke, smoke, light that shit  
Nugget smoker, choker from the bong  
Stalk lover, grow it at my home  
I got you cousin for two O, if you want that zone  
I'm prone to burn good corn, stay on that gone gone  
Keep moving nilla dutches, sweet toker on the norm  
Traum the lungs off folks, skunk raising on my farm  
Need Raid for all the roaches laying in my barn  
Customary inhaling that j by mary, blueberry  
Ak-47 smoker, you know that we gone vary

Cherry, chocolate berry and cognac wraps  
Inspire Fiend to bust his gone head rap  
Put me on my back, pass me the shorty  
Big, right and stacked  
And this blunt ain't what all that's fat

[Chorus x 2]

(Juicy J)  
You high, I'm high, I'm on that acid tripping  
So give me some of that shit you been sniffing  
Let me get high to the sky like Scotty Pippen  
Take me to platinum plus for white women  
You give me the V.I.P. I'll walk in it  
I'll give you the B.I.G. this big dick in yo mouth  
You bitch, I heard you been licking  
Pussy so big you can fit your fucking fist in  
Sexy snow bunny and she said her name was Blair  
She rolled up some weed in a blunt with purple hair  
I told her what big trees come here I said my name was  
air  
Just like that Air Jordan, but I'm never playin' fair  
She said she like the diamonds in my watch, they made  
her glare  
But when I hit that weed I just fell from my chair  
Oh man this purple dope, hope you know this shit the  
shit  
Oh please, oh please, oh please just give just one more  
hit

[Chorus x 2]
