Stay with her, you're gonna miss her
When you're leaving by yourself

Stay with her, you're gonna miss her
Just you and no one else

Chorus:

And you know, the way the wind it blows
You're here one day, then you'll fly
And you know, the way the time, it goes
She'll be gone one day and you'll wonder why

Stay with her, you're gonna miss her
Stop fighting with your heart
Stay with her, you're gonna miss her
Surrender to your part

Chorus:

And you know, the way the wind it blows
You're here one day, then you'll fly
And you know, the way the time, it goes
She'll be gone one day and you'll wonder why

Stay with her, you're gonna miss her
When you're leaving by yourself
