I see no end to my life
When it goes will you be on the other side?

We were close together
To see forever
But that's not meant to be

I feel the end to my life
Cant you see that its hurt that feels your loss?

We were close together
Then detached from each other
If that's your choice so be it

So here we are
All your promises broken
What are we searching for?
So it's my fault I'm left hurting
You've got a head start

So you've got a head start
And you left me here for dead
We were so close
And you hardly gave this thing a chance
So it's my fault
You don't need me
Well that's what you said

This is the end because today

We were close together
Detached from each other
And this is not helping so please

So here we are
All your promises broken
What are we searching for?
So it's my fault I'm left hurting
You've got a head start
So here we are
All our promise broken
What were we searching for?

So its no ones fault I'm left hurting
But you've got a head start
