

## Vacant Stare

### "I Am ..."

Visit "[I Am ...](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Wonder back to where you were at, you'll find me  
You fucking idiot what you got see  
Wasn't really me just a shadow of what I could've been  
And then multiply  
Into a ruthless, an over bad, another sad  
Then I cut myself out the way  
Of conflicting views (that were) stirring up truth  
I can't get it right

Turning back on myself is the hardest thing  
I could have possibly done  
With the will to change I've got no one to blame and I'm  
telling you this is?

Why, do we always try?  
Do we always try?  
To cover up our mistakes  
To try and be what they'd expect

As I wonder back myself I get full of wealth  
Knowing I am right out of sight  
Feeling calmer, don't know how to use this  
Too busy trying to fucking well abuse this  
That I find myself flipping a coin  
On my personality whom I gonna join  
This is what's wrong this not strong  
I can't explain it  
So who you gonna blame it on

Turning back on myself is the hardest thing  
I could have possibly done  
With the will to change I've got no one to blame and I'm  
telling you this is?

Why, do we always try?  
Do we always try?  
To cover up our mistakes  
To try and be what they'd expect

Find a way to find yourself  
And mind you don't fall  
I'm not sure I like what I found so

Be careful of your height and say I'm all I am

Cause the fact of the matter is what you see and you  
get

Isn't always true for me

I lie to the back of my teeth and your never gonna see  
me

Cause I cover it up with expression

Would you call me a fool cause I'm questioned?

And you never gonna break this

Cause the face who takes this space is under pressure

Everyone shows a gesture

By changing the mask I wear am I a lesser?

Oh, and when I get low

I can not stay this way why cant you see?

Its easy to delude yourself in thinking this is who I am

Get

Get back

Get

Get back further

Get

Get back

Get

Get back further

To cover up are mistakes

To try and be what they'd expect

Expect to see and find

Expect to see and hear

Expect to be and do

But know one said it be easy

But no one said it be easy

No one said it be easy

No one said it be easy

No one said it be easy

No one said it be easy

No one said it be easy

No one said it be easy

No one said it be easy
