Now fallen to my knees
Do you want to save me or not
Sound made it to my head
Screaming

Nothing else is right to me so maybe
We will fail to never see
The future has an end
And it's forever (and) ever
With the key to see forever
With the key to see forever
It's all-fake then you break, then you'll go

Reform
Remake
Have regret
Recreate

Found fallen to my knees
Do you want to face me or not
Bound, captured by my pleas
I'm begging

Nothing else is right to me so maybe
We will fail to never see
The future has an end
And it's forever (and) ever
With the key to see forever
With the key to see forever
It's all-fake then you'll break, then you'll go

Reform
Remake
Have regret
Recreate

And die create

Now fallen to my knees
Do I have to plead?
Do I have to plead?
Begging on my knees

Is this what you wanted?
Cause this is what you got
This is what you wished for
So die with it

Now fallen to my knees
Do you have to plead?
Begging on your knees
Are you gonna save me?

Forever and ever
Nothing else is right to me
Nothing else is right to me

So maybe
We will fail to see
We will fail to never see
The future has an end
And it's forever (and) ever
With the key to see forever
With the key to see forever
It's all-fake then you'll break, then you'll go

Reform
Remake
Have regret
Recreate

With the key to see forever
With the key to see forever
It's all-fake then you'll break, then you'll go

Die create
Now regret
Die create
