[Music & Lyric: Destruction]

I was born in a dark winter night
Thunder and lightning greeted me

Now it's time to begin to fight

Kingdom of heaven; I can't see...

My home is the bloody Hell
The place where Satan rules

The world is now like a big shell

The fire of hell will destruct you fools

I can never trust the virgin preacher
I don't believe in Jesus Christ
It's all right 'cause' Satan is my teacher

Hidden them when we arise

I command and you get down on your knees
We sacrifice infancy on Satan's order

Come taste blood, our living grease
Headless bodies found, one is your daughter...
